PRODUCT DESCRIPTION

St Marys Contempra™ GUL Cement is a greener, more sustainable cement which contributes up to a 10% reduction in CO₂ emissions compared to GU Cement while maintaining equivalent performance.

BASIC USE

Portland-limestone cement is the binding ingredient used in concrete mixes with or without supplementary cementitious materials. It is a general-use cement suitable for all uses where the special properties of other types are not required.

It is used and proportioned similarly to normal Portland cement in concrete mix designs.

TECHNICAL DATA**APPLICABLE STANDARDS**

- CSA A3001 – Cementitious Materials for Use in Concrete

PRECAUTIONS

Avoid contact with eyes. Contains Portland cement, which when mixed with water creates a calcium hydroxide solution. If splashed in eyes or skin, flush thoroughly with water. Avoid contact with skin, including contact with saturated clothing. Persistent discomfort requires prompt medical attention. For more information, reference the applicable Safety Data Sheet (SDS). The SDS should be consulted prior to use of this product and is available upon request or online at www.stmaryscement.com

AVAILABILITY

St Marys Contempra™ GUL Cement is available in bulk or packaged form. Contact manufacturer for information on distribution and availability.

WARRANTY

Manufacturer will provide mill test certification that product meets and exceeds applicable CSA specifications.

St Marys Cement will not guarantee finish work, having no control over the use of this product.
